## Evaluation

It is easy to use pieces of printed papers that have been thrown away simply as recycled goods. However, this product upgraded recycled goods into goods that people want. We do not have to suppress ourselves or tolerate it for the environment, and this product that people will want to use is gradually contributing to reducing the burden on the environment without us realizing it. This is an ideal upcycle.

## 審査委員の評価

元々は捨てられていた印刷物の切れ端、それをただの「再利用品」として使うことは簡単である。しかしこの製品は「再利用品」を乗り越して「欲しくなる商品」にまで昇華させた。仕方なくや環境のために我慢するのではなく、進んで使いたい商品が知らず知らずのうちに環境負荷軽減に貢献している。理想的なアップサイクルである。
