

ASEAN-Japan Centre is going to host the fourth session of the ASEAN Update Seminar SDGs Series on the “Evolution of Social Impact Management: Introduction of SDGs Impact Standard”. This seminar series is centred on the potential of “impact investing” as a vehicle to finance the work towards achieving the SDGs in ASEAN and features topics that spur progress towards the SDGs.

This fourth webinar focuses on the topic of social impact assessment, impact management and SDGs impact standard – a very topic of exploration, discussion and execution today among many businesses regardless of their size.

This session on the evolution of impact management and introduction of SDGs Impact Standard will be lectured by Mr Ken Ito, the Executive Director of Social Value Japan(SVJ). Mr Ito has been deeply engaged in the field of social impact assessment and management and Social Value International, which SVJ is a member of. Mr Ito has also been engaged with the UNDP on SDGs Impact Standard.

It is our hope that this webinar will assist all kinds of businesses – MSMEs and large corporations in ASEAN and Japan currently exploring ways to understand the SDGs impact standards for their private equity, bond and business operation related to the SDGs.
