

## ASEAN Update Seminar Series

### An Observation towards ASEAN's Green Recovery

#### ASEAN-Japan Centre

ASEAN-Japan Centre will host the ASEAN Update Seminar Series: “An Observation towards ASEAN's Green Recovery”. Through green recovery, governments will have the opportunity to accelerate both the reconstruction and de-carbonization of the economy damaged by COVID-19.

In this webinar, Mr. Takashi Hongo, senior research fellow of Mitsui Co. Global Studies Institute (MGSSI), will present the current green recovery issues and challenges in ASEAN, and recommend strategies toward the de-carbonization of ASEAN economies. This webinar will also explore potential areas for the promotion of green growth cooperation between Japan and ASEAN.

It is our hope that this webinar will be useful for Japanese business people who are currently exploring trade and investment opportunities in ASEAN as well as research institutes and academics interested in ASEAN's future growth in this area.
