

ASEAN SDGs Seminar Series Vol.6

Building the Ecosystem of Social Innovation: The Role of Impact Investing Intermediaries

ASEAN-Japan Centre

ASEAN-Japan Centre is going to host the 6th session of the SDGs Seminar Series: “Building the Ecosystem of Social Innovation: The Role of Impact Investing Intermediaries”. This seminar series kicked off in May 2021 with the first session highlighting the potential of “impact investing” as a vehicle to finance the work towards achieving the SDGs in ASEAN.

In this session, we invite Mr. Tomo Hamakawa, Co-Founder of Earth Company, who will introduce the work of Earth Company that plays a role of an impact investing intermediary building the broader ecosystem of social innovation – beyond the impact investing market.

It is our hope that this webinar will assist all kinds of businesses – MSMEs and large corporations currently exploring ways to understand the impact investing and the SDGs endeavours in these regions.
